14.16.716 - Economic development power rate.

A. The purpose of this rate schedule is to encourage economic development by encouraging capital investments, adding jobs, improving the efficient utilization of existing city power and light facilities and diversifying customer base.

B. Applicant eligibility requirements are as follows:

1. New commercial or industrial customers at one location having peak demand equal to, or greater than, fifty kilowatts. A new customer's electric service represents demand not previously serviced by the city at any location.
2. Existing commercial or industrial customers who increase their peak demand at one location by no less than fifty kilowatts. The rate shall apply only to the expanded demand and shall be measurable by installation of a separate electric meter or other device approved by the city.
3. The applicant is required to be located where there is no significant additional investment in utility facilities by the city, or pay for the line extension and/or transformer costs under terms of the existing code.
4. A customer has twelve months from the month service is energized to demonstrate eligibility under provisions 1. or 2. of this section.
5. All written requests for service under this section will be considered by the city; however, requests, which do not conform to purpose, and applicability provisions as determined by the Superintendent, shall not be approved.

C. Character of service. Service will be sixty hertz, alternating current. The city reserves the right to specify the voltage or phase of service supplied under this schedule.

D. Monthly rate.

		Billing Period
Customer charge:		$25.00
Demand charge:		-0-
Energy charge:	All KWH	8.0 cents/KWH

E. Term of rate.

1. The term of this rate shall not exceed a period of three years from month service is energized or new load is added for which the rate is being sought.
2. Continuation of service beyond the three year limit will be at the large commercial rate schedule (14.16.690) in effect at that time.
3. This rate will not go into effect until applicant is approved by the city, and no refund or consideration for past power consumption will be considered.

F. Special provisions. This rate may be curtailed by the city upon thirty days notice in the event that sufficient hydro power is no longer available. Should this occur, the customer would have the option of switching to the large commercial rate schedule or having the service discontinued.

G. Agreement of service. The city may require an agreement to be entered into for service under this schedule.
